Logo Design

Bangladesh Air Force Museum

Contributed to the visual branding and identity development of the Bangladesh Air Force Museum through the creation of logo concepts, institutional branding elements, and supporting graphic assets. The design process focused on preserving the heritage, values, and aviation legacy of the Bangladesh Air Force while establishing a modern and recognizable visual identity.

Visual Documentation

Capturing unique perspectives through aerial photography to showcase landscapes, infrastructure, events, and architectural environments. Combining technical precision with visual storytelling, each aerial image is crafted to provide impactful documentation, promotional content, and strategic visual communication from above.

2D Motion Graphics

Motion Fact ??

The sense of speed in animation is often created through movement, timing, and anticipation. Action sports such as motocross are frequently used in motion graphics because their dynamic movements naturally capture attention.

6 Timeline preview from

Maximum Impact in Minimal Time

In the fast-paced world of television and digital broadcasting, capturing audience attention requires instant visual impact. This section showcases the design and production of 3-to-4-second dynamic pop-up ads and L-bands, specifically engineered for high-retention media platforms. From the initial timeline keyframing in After Effects to the final on-screen composition, every element—including typography layout, brand messaging, and particle effects—is optimized to deliver a powerful marketing message without disrupting the viewing experience.

Visual Storytelling

Production and Post-Production

Did You Know? ??

For centuries, the rooster has symbolized awareness, communication, and the beginning of a new day. In visual storytelling, capturing attention at the right moment is equally important in every frame, sound, and edit works together to deliver a message that resonates with audiences.

The Beginning of My Creative Journey as a Cinematograher

very creative journey begins with a single frame.
These early experiences shaped my vision, discipline,
and passion for cinematic storytelling.
